over 30m EUR

Builcogreen project

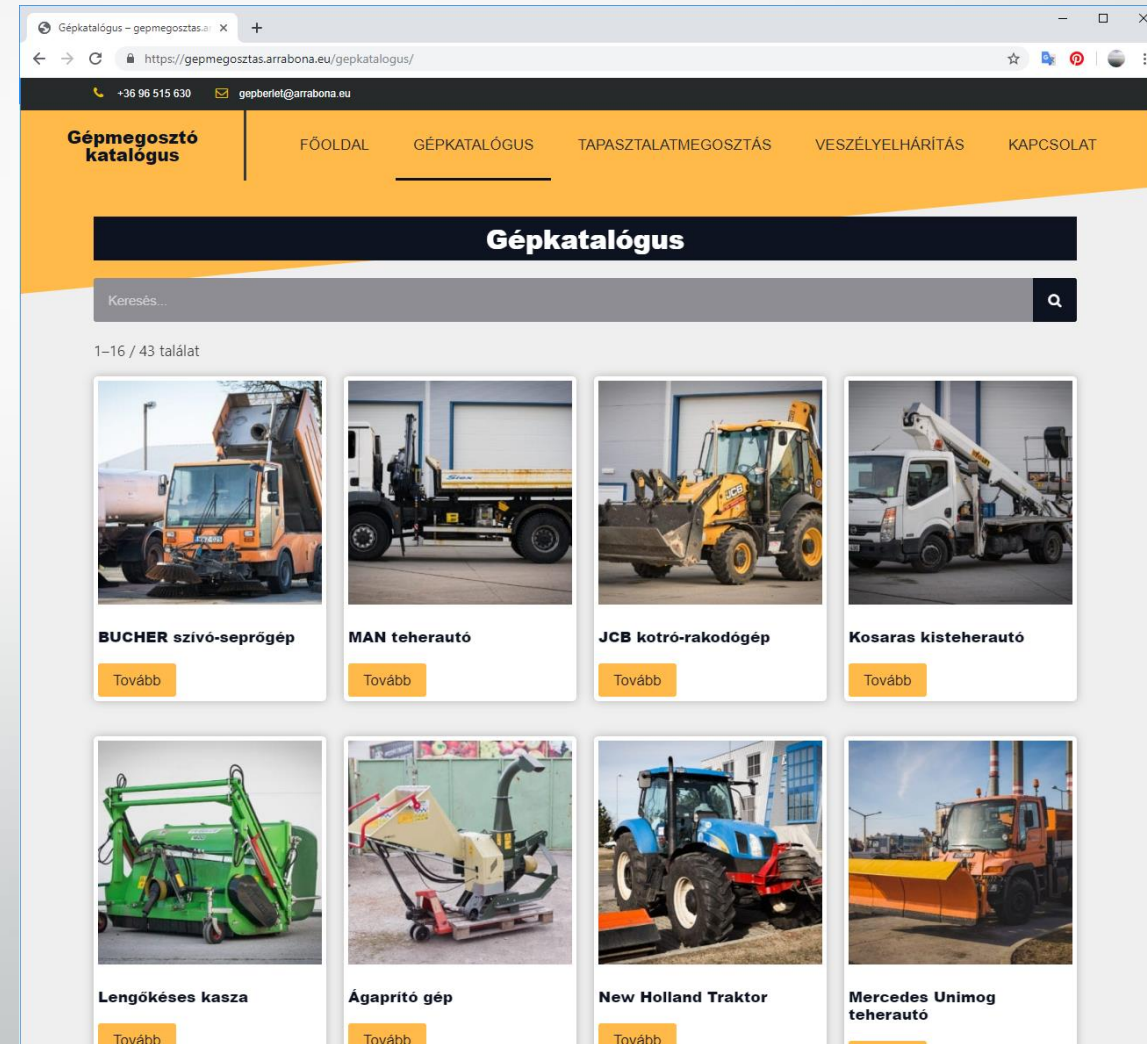

<https://builcogreen.arrabona.eu/>

<https://gepmegosztas.arrabona.eu/gepkatalogus/>

- Interreg V-A Slovakia-Hungary Cooperation Program
- Project goal: Support of special municipal and urban management activities
- Budget: 273 373,26 EUR
- Activities:
 - Knowledge and best practice exchange
 - Mentoring system
 - Development an online machinery sharing system, using the sharing economy model

Online machinery sharing system and catalog

- Main objective: sharing **special machines**;
- share information, knowledge and best practice;
- **open to all people**;
- Each organisation may cooperate with the recipient according to its conditions of use.

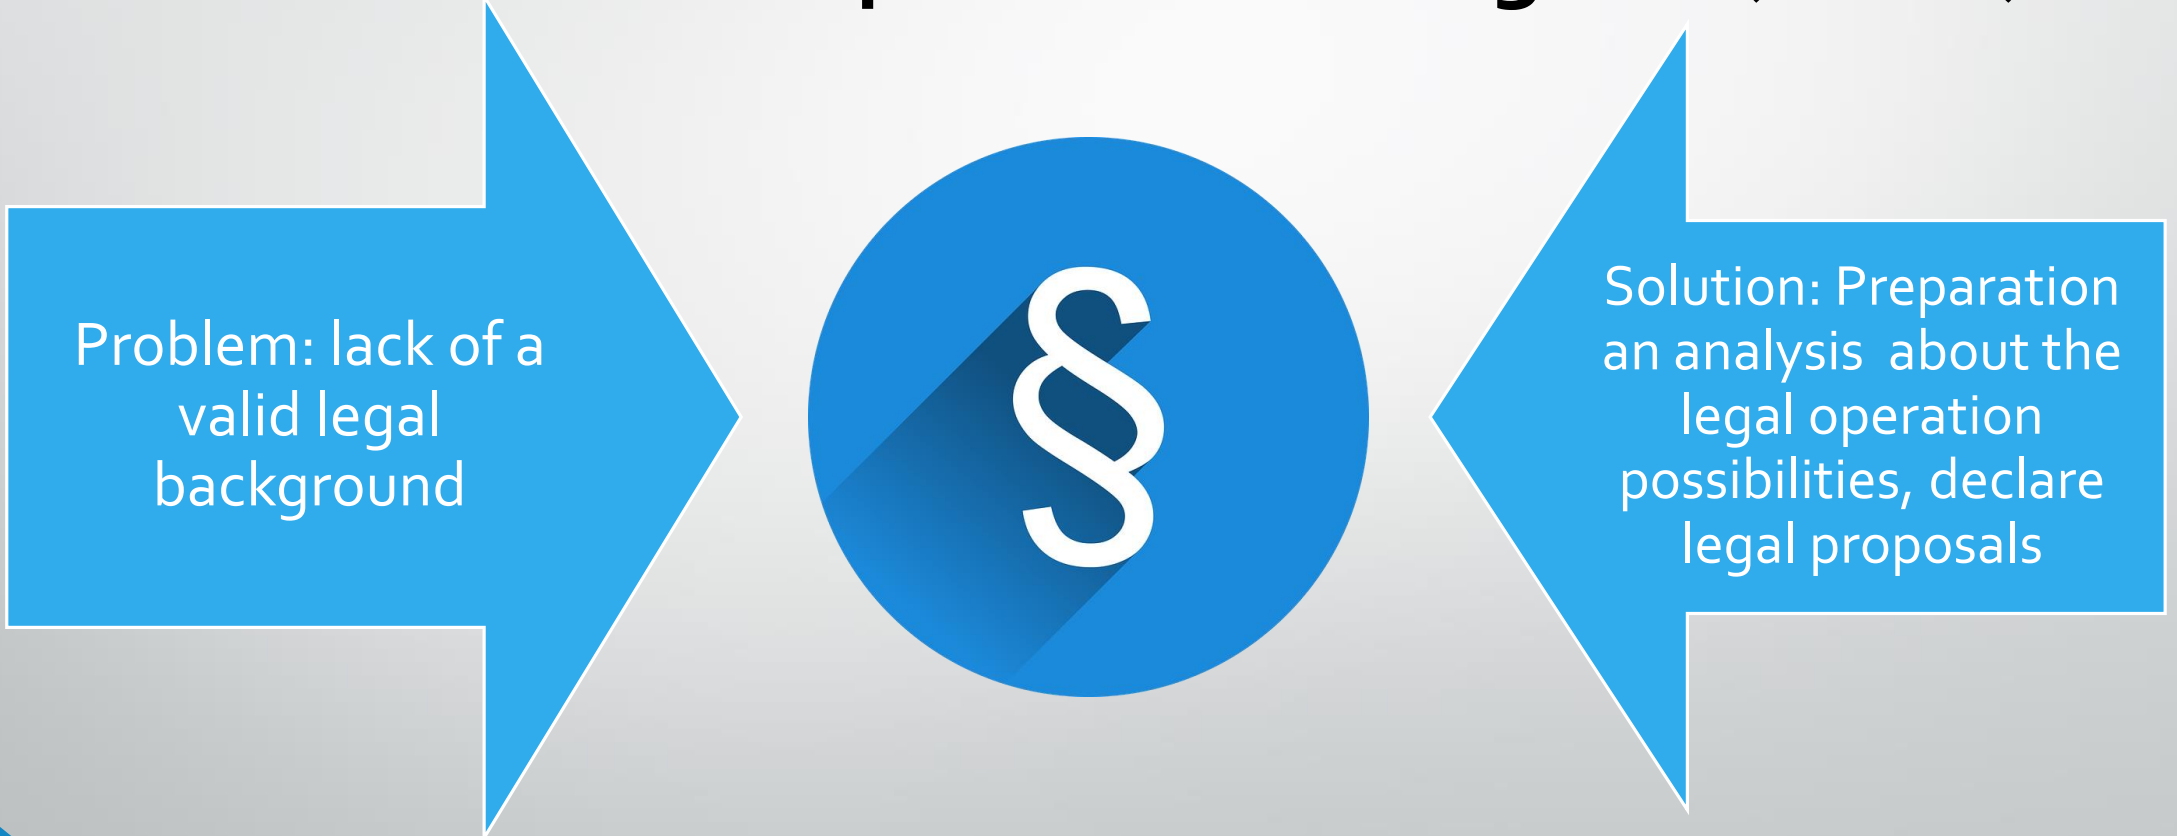

Possible legal obstacles

- Could be use the vehicles / machines the two sides of the border?
- On what condition can vehicles be driven on the road?
- What kind of mandatory licenses and certificates can be used to the vehicles in the settlement services?

B-solutions project

Association of European Border Regions (AEBR)

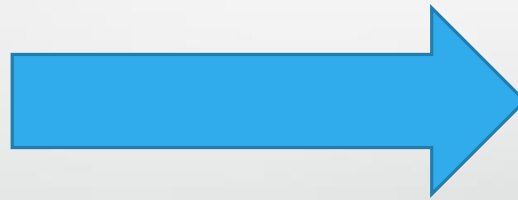

Problem: lack of a
valid legal
background

Solution: Preparation
an analysis about the
legal operation
possibilities, declare
legal proposals

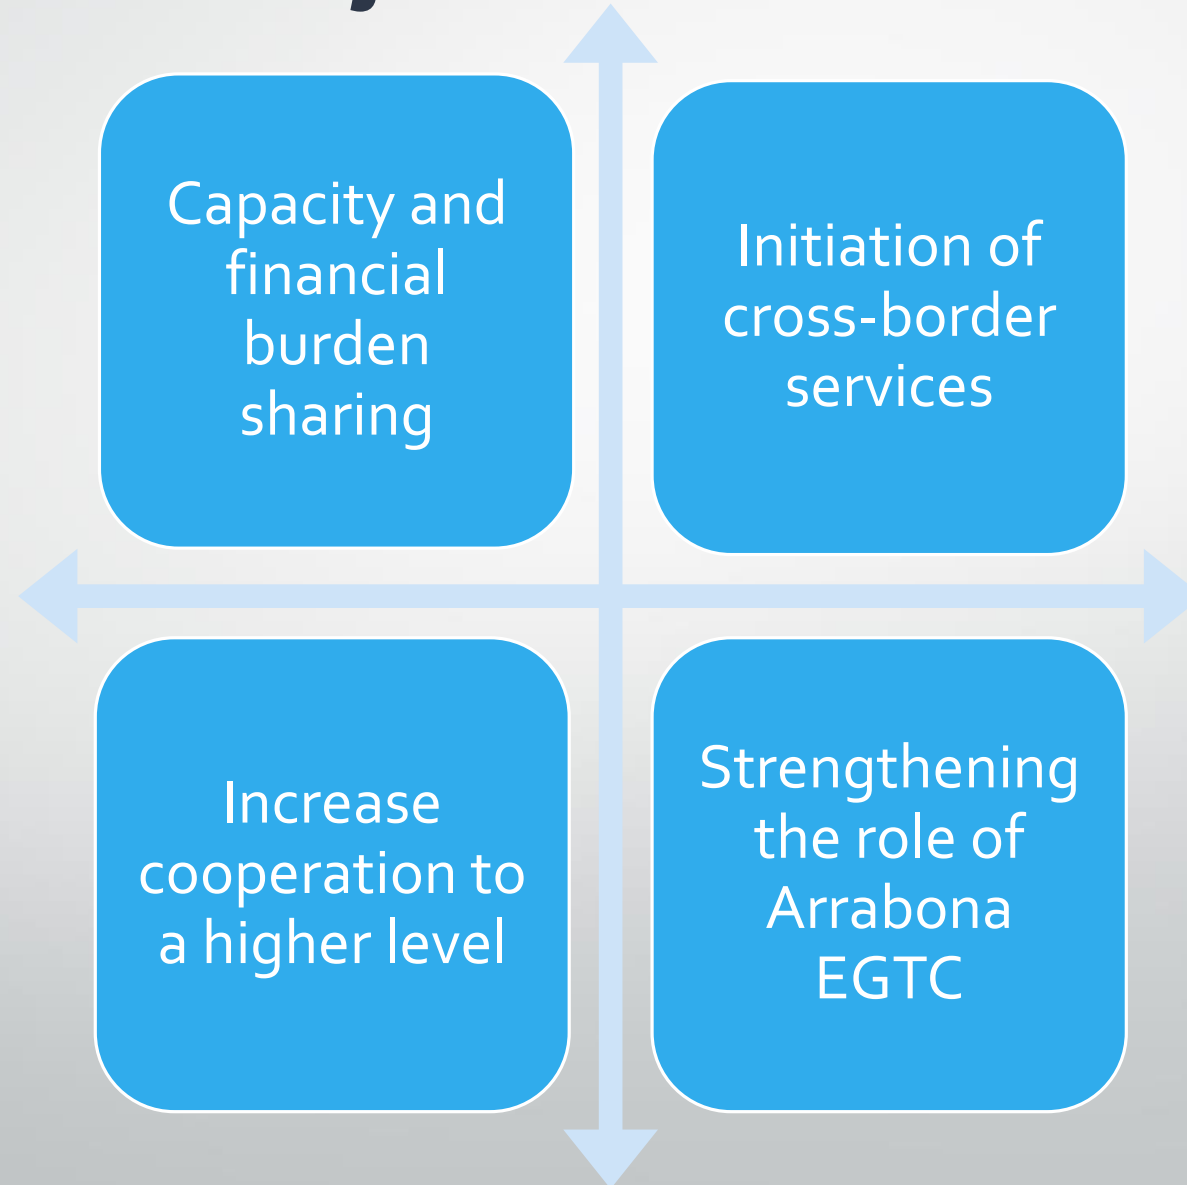

The main target area of the operations of the investigation

- Hungarian Slovakian border
- Bratislava and Tranava region (SK)
- Győr-Moson-Soporn county

Applying the model allows for similar sharing solutions in other areas as well

Project Effects

Thank you for your attention!
